

HANER PRODUCT LIST

01-13

防水接线盒系列
Waterproof Junction Box

14-20

组合插座配电箱
Combined Socket
distribution Box

21-25

工业用插头、插座、耦合
器(连接器)及接插装置
Industrial Plugs & Sockets
(Connectors)

26

尼龙电缆接头
Nylon cable gland

塑料开关箱、防水盒采用高材质的聚碳酸酯(PC)或ABS材料制成, 用于注塑的独特工艺生产了一种“新概念”安全高防产品, 以保护它们免受恶劣环境的伤害。箱体大小尺寸, 有不同规格组成, 可选择不透明或透明盖, 铰链式或螺栓式的盖。开关箱专门用作按钮、端子板、电子装置控制设备上, 具有防水、防尘、防腐作用, 可替代玻璃纤维的密封箱。

The plastic switch box and waterproof box are made of high quality PC or ABS,a unique tool that is used for injection molding produces a new type high security product to protect them from the severe environment.The box body may be different and has various specifications,it cover can be non-transparent or transparent,can be hinge type or bolted.This switch boxes are specially used on button,terminal boards,electronic device control equipment,is featured with waterproof,dustproof and corrosion proof,can be used instead of glass fiber seal box.
